CENTRAL SOIL & WATER CONSERVATION RESEARCH & TRAINING INSTITUTE
218, KAULAGARH ROAD, DEHRADUN - 248 195 (UTTARANCHAL) INDIA

2007

Chapter	Title	Page No.
Section 1 : Soil		
1.	Soils of India and Erosion Problems	3
2.	Weathering and Soil Formation	23
3.	Physico-Chemical Properties of Soil	36
4.	Biological Properties of Soil	61
5.	Soil Survey, Mapping and Use of Remote Sensing Techniques	72
6.	Land Capability and Land Suitability Classification for Landuse Planning	89
7.	Soil Fertility Management for Sustained Productivity	119
8.	Problem Soils and Their Remedial Measures	133
Section 2 : Agronomy		
9.	Agronomy for Resources Conservation	151
10.	Cropping and Farming Systems	165
11.	Tillage Practices	181
12.	Crop Management Practices	193
13.	Nutrient and Moisture Management	209
14.	Agronomic Measures for Erosion Control	225
15.	Sustainable Crop Production	238
Section 3 : Socio-economic Aspects		
16.	Agro-Ecosystem Analysis and Participatory Rural Appraisal	255
17.	Communication, Adoption and Diffusion of Technology	270
18.	Capacity Building in Resource Conservation	280
19.	Monitoring and Impact Evaluation of Watershed Management Programmes	289
20.	Community Organization and Institutional Arrangements for Watershed Development	305
21.	Role of Women in Participatory Watershed Development Programmes	316
