Achieving Land Degradation Neutrality (International Webinar)

July 22-24, 2020

Webinar on "Achieving Land Degradation Neutrality" with focus on developing countries is being organized by Indian Association of Soil and Water Conservationists (IASWC), Dehradun in collaboration with ICAR-Indian Institute of Soil and Water Conservation (IISWC), Indian Council of Forestry Research and Education (ICFRE), Dehradun during July 22-24, 2020. Over 300 participants, including global researchers, academicians, university professors, policy planners and implementers are expected to participate in the webinar. Renowned global speaker having long experience on land degradation and restoration will deliver their views and experiences through video conference. The Webinar aims to capitalize the knowledge and

experiences of various resource persons on restoration technologies developed across the globe to achieve the target fixed by UNCCD.

REGISTRATION FEE

Registration fee is ₹ 500 per person for Indian Delegates, ₹ 200 for Indian Students and \$10 (US) for International Delegates. However, invited delegates / speakers will be exempted from the registration fee. Registration should be made through online (<https://in.eregnow.com/ticketing/register/achieving-land-degradation-neutrality>). There is also a provision of e-certificates for the registered participants of all categories.

THE WEBINAR COVERS THEMES OF RESTORATION IMPORTANCE OF LAND RESOURCES
